

CathTower

Secure Inventory Management
with CathTower in Cardiology
and Other Interventional Areas

CathTower is an integrated storage system where the volume capacity can be structured in line with needs for cardiac catheterization and interventional radiology laboratory procedures. **CathTower** not only increases security, it also ensures traceability, standardization of all medical supplies usage and easy access to all supplies.

The workflow in radiology and other interventional areas is very different from that of the standard workflow. **CathTower** helps to standardize this workflow. Patient oriented care in radiology and other invasive fields is safer and easier with **CathTower**. The system also increases system and medical supply security as well as productivity in workflow.

Direct and hidden costs are reduced and medical supply storage management processes are optimized. By providing real time tracking of medical supplies from storage to dosage of the patient, the quality of your health institution's services are increased.

Technical Specifications

- Adjustable shelves
- Easy access with Take-Return labels
- Illuminated guidance system feature eliminates errors

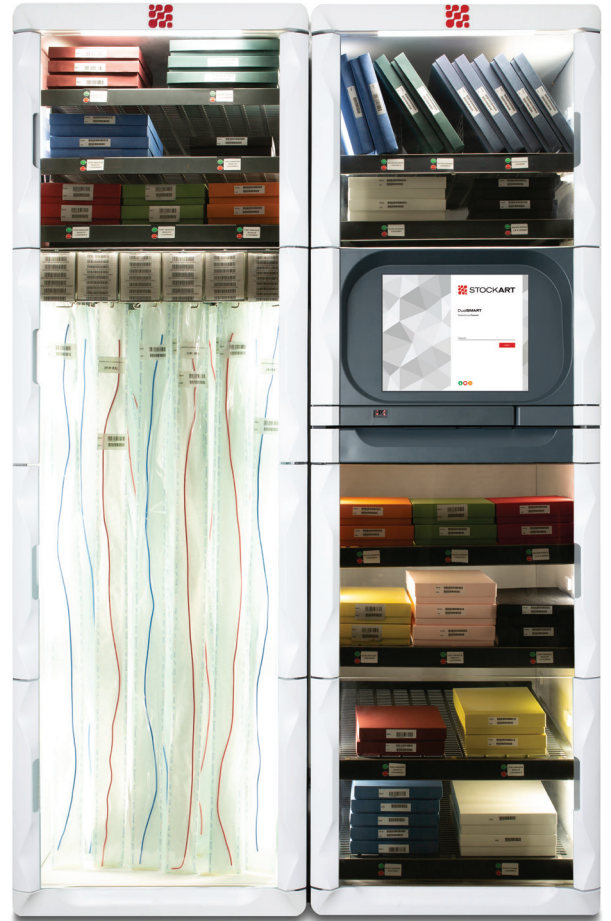

- Adjustable, special design sliding racks and hooks

- Disinfectant immersible keyboard
- Barcode reader
- Bio-ID finger print recognition

System Features

- Flexible Configuration
- Inventory Security
- Automation and optimization inpatient billing through HIS Integration
- Bill-Only and Re-Use management
- Specially designed sliding racks and adjustable hooks to hang catheters
- Minimum, Maximum and Critical Stock Level management
- Expiration Date management
- Lot/Serial Number Tracking
- Secure access to system with BioID Fingerprint Reading Technology and easy use with the Barcode Reader
- Preselected process time unique to the operation assignment, reporting, discrepancy tracking and documentation
- **SupplySMART®** Compatible
- RIS Integration Option
- MMIS (Material Management Information System) Integration Option
- Option to manage the medications and medical supplies on the same system with **DualSMART®**
