Flexible solutions for your different and ever changing needs...

Life is forever changing! Change is inevitable!

That is why we believe in the power of change and flexibility...

STOCKART products offer you a wide and flexible variety of choice, this flexibility continues even post-purchase, allowing you to adapt and change your products in line with your constant needs.

Main Stations
The Main Station consists of 4 modules. These modules include; (a) Med Door, (b) Supply Door, (c) Drawer Module, (d) Main Module. Each module may be configured accordingly.

Main Module
17" Touch Screen, Keyboard, Thermal Slip Printer, Thermal Unit Dose Label Printer, Barcode Scanner, Bio ID Scanner, Nurse Tray, Utility Matrix Drawer and Internal Return Bin.

CodePass
Integrated Barcode Scanner, allows control of medication and medical supply inventory movement.
Nurse Tray
Ergonomic nurses counter for usage during preparation of medication and supplies for patients.

LightedPath
The Illuminated Guidance functions as a guide to the correct medication and supply's door, drawer and pocket, providing the user with easy visual guidance.

Towers
Cabinets not including the Main Module are named Towers. One may attach as many towers as one requires to each Main Station. The Tower Modules include; (a) Med Door, (b) Supply Door, (c) Drawer Module. Each module may be configured accordingly.

Weight
Main Stations: ~ 230 kg
Towers: ~ 180 kg

Dimensions (Main Stations and Towers)

Internal Return Bin

External Return Bin

While choosing the height of your drawer; single deep or double deep you also have the freedom to choose from a variety of types...

Whichever drawer you choose you can configure them into the Matrix, SMART Matrix or Sliding Drawer.

Matrix Drawer
Once open, access to all medication pockets is possible. Easy access is provided therefore this pocket is perfect for low level security and frequently used medications.

SMART Matrix Drawer
SMART Matrix Drawer includes the LightedPath and ScanBar. With the help of the ScanBar the pockets are electronically perceived and fed into the system. The LightedPath with its illuminated guidance directs the user to the correct pocket and prevents errors.

Uniq Sliding Drawer
The Sliding Drawer carries unit doses for single item medication in each pocket. Only the requested medication pocket and dose is accessible. Provides high level security for narcotic medications.

Multi Sliding Drawer
The sliding drawer may be configured into carrying multiple doses of single item medication. Upon opening, only the requested medication may be accessed. Multiple doses are within this pocket and it provides medium level security.

Flexi Sliding Drawer
The sliding drawer can be configured as "Uniq" as well as "Multi". This configuration is perfect for medication management systems based on variety. It is may be used for both medium level and high level security medications.
